CONFERENCE AGENDA

Conference Theme:

> "KENYA is on its journey to become Africa's Energy Capital by upscaling transition in Renewables, AI, Nuclear and E-Mobility."

DAY 1- TUESDAY, 10 NOV 2026

11:00 – 12:00 | OPENING PLENARY

'KENYA as the Energy Capital of Africa by shaping a solid business environment for sustainable investments'

- Welcome Remarks: Augo Benard, Channel Business - Eastern Africa, Sungrow
- Opening Remarks: Samson Ondiek, Manager, Economist | Energy Strategist | Policy Analyst , Kenya Power
- Felicitation: Murefu Barasa, Chairman, Kenya Renewable Energy Association, KEREA
- Felicitation : Victor Koyier, Director Microgrid, Huawei Sub Saharan Region
- Felicitation :Hadyr KOUMAKPAI , Vice President General Manager Africa , JA Solar
- Inaugural Address by Chief Guest : Thomas Karungu , Secretary - Electrical Power Development, State Department for Energy, Ministry of Energy and Petroleum

Focus Points: *Kenya's national energy targets and progress toward 100% renewable electricity generation • How Nairobi could be positioned to lead Africa's clean energy investment story in 2026 • Regulatory and policy reforms making Kenya the most attractive renewable energy market in East Africa • Government commitment to a predictable, transparent business environment for foreign and domestic investors • 'Mission 300'- Opportunities for growth for all stakeholders*

12:00 – 13:00 | SESSION 1

'Future of Energy is STORAGE; Decoding Opportunities for C&I, Rooftop and Rural Energy in East Africa'

Speakers

- Hadyr KOUMAKPAI , Vice President General Manager Africa , JA Solar
- Titus Koech , Head of Solutions, Jinko ESS
- Rizwan Razaq, Middle-East & Africa Director, ATMOCE
- Jade Martyn, Sales Director Africa, Sigenergy Africa
- Jenny Fletcher, Co-Founder and CEO - Ariya Finergy Holdings Limited
- David Alsina, Sales Director – East & West Africa, BSL BATT

Focus Points: *Why & How Storage is now the critical bottleneck and the biggest opportunity in East Africa's energy market • Technology Advancements lead to business optimization • The economics of battery storage in 2026: Are prices finally at the tipping point for mass deployment? • C&I energy buyers: What they want, what they will pay and how storage changes the value proposition*

14:00-14:30- | COMPANY PRESENTATION- HUAWEI

- Vishnu Puthenveedu , Executive Product Manager, Huawei Kenya Digital Power

14:30 – 15:30 | SESSION 2

'Digitalisation leads to Decarbonisation; Building a Smarter, Sustainable and Connected World'

Speakers

- Geoffrey Kimiti, Executive Chairman, IoT Powerpay Africa Ltd
- James Ngomeli, Chief Energizing Officer Brands & Beyond Ltd and Secretary-General Africa Smart Meters Association
- Karanja Njoroge , Managing Director, Dlight Kenya
- Anne Chebet Rugut – Head of Commercial & Distribution Sales, KEVI POWER
- Dorcas Mwigereri , CEO , SolarJiji Technologies

Focus Points: How digital infrastructure such as smart meters, IoT sensors, storage devises, AI-driven analytics is transforming energy across East Africa • The link between grid digitalisation and decarbonisation and why you cannot achieve one without the other • Smart metering and demand-side management — reducing losses, improving revenue collection and empowering consumers • Cybersecurity and the connected grid. What are the risks of a digitally integrated energy system and how to manage them

DAY 2- WEDNESDAY, 11 NOV 2026

11:00- 12:00 | SESSION 3

'The Age of Green Capital: Proven Financing Models and Case Studies Driving Africa's Renewable Energy Transition'

Speakers

- **Prudence Nyambura, Health, Safety, Environment and Social Associate, PowerGen Renewable Energy**
- **Dr. Dianah Ngui Muchai , Clean Energy Access Research Manager , CLASP**
- **Tonny Mutuku , Chief Executive Director , Rockwill Green Energy East Africa**
- **Simon Graaff , Chief Technology Officer , Equator Energy Kenya Limited**

Focus Points: *The current state of green finance in Africa and how much capital is available and where it is actually being deployed • Green bonds and climate funds: what issuers and investors need to know about accessing these instruments in Kenya • Real case studies, projects that got funded, how the deal was structured and what made it bankable • Barriers to green financing in East Africa such as currency risk, offtake agreements and land rights and how to overcome them*

12:00-12:30- | COMPANY PRESENTATION- SAJ

- **Eustace Ochieng Okoth, Technical Director, SAJ EA Region**

14:30-15:30 | SESSION 4

"A Shark Tank for Women heading the Energy Eco-System in Kenya" - CEO Forum

Moderator

Ruth Mawia Mwanzia, Kenyan Entrepreneur, Founder, Mentor and Strategic Communications

Speakers

- **Michelle Mwambela, CEO , Association for Women in Energy and Extractives in Kenya (AWEIK)**
- **Ann Nderi, Group Head of Sustainability, NCBA Bank**
- **Bianca Gichangi , Managing Partner , Nuera Climate**
- **Juliah Wambui, Director, Juval Innovations**

Focus Points: *The real barriers women face in reaching leadership positions in East Africa's energy sector and what is actually changing • Access to capital for women entrepreneurs in energy and what DFIs, impact investors and commercial lenders are doing differently • The Shark Tank element, live pitches from women-led startups seeking investment, mentorship or strategic partnership(we can call for entries) • Building the pipeline: What the energy industry must do now to develop the next generation of women leaders in Kenya • Gender-lens investing in energy and why it delivers stronger long-term returns and how to structure it effectively*

17:30 | Welcome Reception and Cocktails.

DAY 3- THURSDAY, 12 NOV 2026

11:00 – 12:00 | SESSION 5

'De-briefing Kenya's future landmark energy infrastructure projects'- Utility Masters' Forum

Speakers

- Eng. Reuben Ngosi, GM - Drilling & Infrastructure Development, Geothermal Development Company
- Simon Wade, CEO, Kipeto Energy
- John M. Mutua , Director Economic Regulation & Strategy , Energy and Petroleum Regulatory Authority
- Wangari Muchiri , CEO / Africa Advisor , RE.Think Energy / Global Solar Council

Focus Points: *An honest review of Kenya's flagship energy infrastructure projects: What is on track, what has been delayed and why •The pipeline of projects coming to market in 2026 and 2027 like geothermal expansion, wind, utility-scale solar and hydro •How Kenya is structuring PPPs and IPP agreements to attract private capital into large-scale infrastructure • EPC contracting in East Africa such as procurement challenges, local content requirements and supply chain management •Grid integration of large-scale renewable projects. What are the technical and regulatory hurdles developers face today*

12:00-:13:00 | Session 6

'Kenya for E-Mobility; Decoding Growth Opportunities for Enterprises'

Moderator

- Elijah Oduor Othieno , Executive Officer, Electric Mobility Association of Kenya (EMAK)

Speakers

- Philip Gorman, Head of Charging Infrastructure ,BasiGo
- Troy Barrie , Chief Technology Officer , Ariya Finergy
- Maxmillian Ochango Ambeba , Advocacy Lead, eBee Mobility Kenya Ltd

Focus Points: The state of electric mobility in Kenya today for two-wheelers, three-wheelers, buses and private vehicles • The charging infrastructure gap: What Kenya needs to build, who will build it and how it gets financed at scale •Can Kenya's iconic public transport sector lead East Africa's EV transition •EV and the national grid and how mass EV adoption affects Kenya's power demand and grid stability •Financing EV adoption such as asset finance, leasing models and consumer credit solutions making EVs accessible

****
