

CONFERENCE AGENDA

Conference Theme:

“KENYA is on its journey to become Africa's Energy Capital by upscaling transition in Renewables, AI, Nuclear and E-Mobility.”

DAY 1- TUESDAY, 10 NOV 2026

11:00 – 12:00 | OPENING PLENARY

'KENYA as the Energy Capital of Africa by shaping a solid business environment for sustainable investments'

- Welcome Address:
- Opening Remarks: Dr. (Eng.) Joseph Siror, Managing Director & CEO, Kenya Power
- Felicitation by: Murefu Barasa, Chairman, Kenya Renewable Energy Association, KEREAA
- Felicitation by: Speaker from Huawei Digital Power Eastern Africa Region
- Chief Guest and Inaugural Address:

Focus Points: *Kenya's national energy targets and progress toward 100% renewable electricity generation • How Nairobi could be positioned to lead Africa's clean energy investment story in 2026 • Regulatory and policy reforms making Kenya the most attractive renewable energy market in East Africa • Government commitment to a predictable, transparent business environment for foreign and domestic investors • 'Mission 300'- Opportunities for growth for all stakeholders*

12:00 – 13:00 | SESSION 1

'Future of Energy is STORAGE; Decoding Opportunities for C&I, Rooftop and Rural Energy in East Africa'

Speakers

- Hadyr KOUMAKPAI , Vice President General Manager Africa , JA Solar
- Titus Koech , Head of Solution , Jinko ESS
- Rizwan Razaq, Middle-East & Africa Director, ATMOCE
- Jade Martyn, Sales Director Africa, Sigenergy Africa
- Jenny Fletcher, Co-Founder and CEO - Ariya Finergy Holdings Limited
- David Alsina, Sales Director – East & West Africa, BSL BATT

Focus Points: *Why & How Storage is now the critical bottleneck and the biggest opportunity in East Africa's energy market • Technology Advancements lead to business optimization • The economics of battery storage in 2026: Are prices finally at the tipping point for mass deployment? • C&I energy buyers: What they want, what they will pay and how storage changes the value proposition*

14:00-14:30- | COMPANY PRESENTATION- HUAWEI

14:30 – 15:30 | SESSION 2

'Digitalisation leads to Decarbonisation; Building a Smarter, Sustainable and Connected World'

Speakers

- Francois-Xavier Dubois, Head of Business Development Eastern Africa, Siemens Energy
- Geoffrey Kimiti, Executive Chairman, IoT Powerpay Africa Ltd
- James Ngomeli, Chief Energizing Officer Brands & Beyond Ltd and Secretary-General Africa Smart Meters Association
- Karanja Njoroge , Managing Director, Dlight Kenya
- Anne Chebet Rugut – Head of Commercial & Distribution Sales, KEVI POWER

Focus Points: *How digital infrastructure such as smart meters, IoT sensors, storage devices, AI-driven analytics is transforming energy across East Africa • The link between grid digitalisation and decarbonisation and why you cannot achieve one without the other • Smart metering and demand-side management — reducing losses, improving revenue collection and empowering consumers • Cybersecurity and the connected grid. What are the risks of a digitally integrated energy system and how to manage them*

DAY 2- WEDNESDAY, 11 NOV 2026

11:00- 12:00 | SESSION 3

'The Age of Green Capital: Proven Financing Models and Case Studies Driving Africa's Renewable Energy Transition'

Speakers

- Prudence Nyambura, Health, Safety, Environment and Social Associate, PowerGen Renewable Energy
- Dr. Dianah Ngui Muchai , Clean Energy Access Research Manager , CLASP
- Tonny Mutuku , Chief Executive Director , Rockwill Green Energy East Africa
- Simon Graaff , Chief Technology Officer , Equator Energy Kenya Limited

Focus Points: *The current state of green finance in Africa and how much capital is available and where it is actually being deployed • Green bonds and climate funds: what issuers and investors need to know about accessing these instruments in Kenya • Real case studies, projects that got funded, how the deal was structured and what made it bankable • Barriers to green financing in East Africa such as currency risk, offtake agreements and land rights and how to overcome them*

12:00-12:30- | COMPANY PRESENTATION- SAJ

14:30-15:30 | SESSION 4

"A Shark Tank for Women heading the Energy Eco-System in Kenya" - CEO Forum

Moderator

Ruth Mawia Mwanzia, Kenyan Entrepreneur, Founder, Mentor and Strategic Communications

Speakers

- Michelle Mwambela, CEO , Association for Women in Energy and Extractives in Kenya (AWEIK)
- Ann Nderi, Group Head of Sustainability, NCBA Bank

Focus Points: *The real barriers women face in reaching leadership positions in East Africa's energy sector and what is actually changing • Access to capital for women entrepreneurs in energy and what DFIs, impact investors and commercial lenders are doing differently • The Shark Tank element, live pitches from women-led startups seeking investment, mentorship or strategic partnership (we can call for entries) • Building the pipeline: What the energy industry must do now to develop the next generation of women leaders in Kenya • Gender-lens investing in energy and why it delivers stronger long-term returns and how to structure it effectively*

17:30 | Welcome Reception and Cocktails.

DAY 3- THURSDAY, 12 NOV 2026

11:00 – 12:00 | SESSION 5

‘De-briefing Kenya's future landmark energy infrastructure projects’- Utility Masters’ Forum

Speakers

- Eng. Reuben Ngosi, GM - Drilling & Infrastructure Development, Geothermal Development Company
- Simon Wade, CEO, Kipeto Energy
- John M. Mutua, Director Economic Regulation & Strategy, Energy and Petroleum Regulatory Authority
- Wangari Muchiri, CEO / Africa Advisor, RE.Think Energy / Global Solar Council

Focus Points: *An honest review of Kenya's flagship energy infrastructure projects: What is on track, what has been delayed and why • The pipeline of projects coming to market in 2026 and 2027 like geothermal expansion, wind, utility-scale solar and hydro • How Kenya is structuring PPPs and IPP agreements to attract private capital into large-scale infrastructure • EPC contracting in East Africa such as procurement challenges, local content requirements and supply chain management • Grid integration of large-scale renewable projects. What are the technical and regulatory hurdles developers face today*

12:00-:13:00 | Session 6

'Kenya for E-Mobility; Decoding Growth Opportunities for Enterprises'

Moderator

- Speaker from **Electric Mobility Association of Kenya**

Speakers

- **Maarten Fonteijn, Managing Director, Ebee Africa**
- **Bertha Mvati, Head of Vehicle Asset Finance , BasiGo**

Focus Points: The state of electric mobility in Kenya today for two-wheelers, three-wheelers, buses and private vehicles • The charging infrastructure gap: What Kenya needs to build, who will build it and how it gets financed at scale • Can Kenya's iconic public transport sector lead East Africa's EV transition • EV and the national grid and how mass EV adoption affects Kenya's power demand and grid stability • Financing EV adoption such as asset finance, leasing models and consumer credit solutions making EVs accessible
